CE

Function description

The specialist for high-bay warehouses. And the highest level of surveillance quality. High-bay warehouses often have narrow aisles and high ceilings. Too high for most sensors. We have just the right solution: the IS 345 MX Highbay infrared motion detector was specially developed for mounting at heights of up to 14 m and for precision detection between narrow aisles. Perched up there, it gives you surveillance quality at the highest level, literally. So in the future, you can confidently set your sights higher when it comes to sensor systems! Available in surface-mounted and concealed installation versions, and naturally compatible with the standard interfaces.

Technical specifications

Version	DALI-2 APC - surface, sq.
PU1, EAN	4007841010591
Application, place	Indoors
Installation	Surface wiring, Ceiling
IP-rating	IP54
Mounting height	4 – 16,00 m
Mounting height max.	16,00 m

Optimum mounting height	12 m
Detection angle	Aisle, 360 °
Capability of masking out individual segments	Yes
Electronic scalability	No
Mechanical scalability	No
Time setting	5 s – 15 Min.
Product category	Motion detector

Accessories

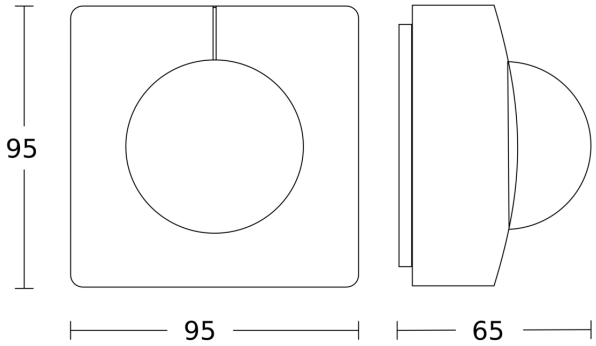

EAN 4007841 009151	Remote control Smart Remote
